

MedSurg™

Postoperative Shoe

Standard Surgical Shoe

DARCO MedSurg™ Shoe

The MedSurg™ Shoe is one of the most versatile postoperative shoes on the market today. EVA insole features twice the padding of standard insoles and can be modified as needed or removed to accommodate the PegAssist™ off-loading insole.

DARCO

MedSurg™ Features and Benefits:

- › **Square Toe Design** acts as a bumper to provide extra protection and facilitates better left/right fit.
- › **MetaShank™** protection provides more rigid control under the metatarsal heads.
- › **Strapless Closure** eliminates buckle pressure on the forefoot and can expand to accommodate dressings up to 17 inches in circumference.
- › Fully compatible with DARCO's PegAssist™ (PTQ Series) off-loading insole and the Body Armor® Toe Guard.

MedSurg™ Indications:

- › After foot surgery or when K-wires are present
- › When large bandages or dressings are required
- › As a platform for the PegAssist™ insole when off-loading wounds
